MOHAMMADREZA TALEBI TARGHI

Software Engineering, Developer & Security

Full-Stack Development • Ethical Hacking • Cybersecurity

PROFESSIONAL SUMMARY

Multidisciplinary professional with 4+ years of experience in architectural visualization, CG art, and design, now expanding strongly into web development and digital solutions. I work with architects and clients to craft modern websites, compelling visual presentations, and high-quality renderings that communicate ideas with clarity and impact. Passionate about creative technology, clean code, and security.

EXPERIENCE

Freelancer | Tehran, Iran | Apr 2023 – Present

Provide services in web design, front-end development, architectural visualization, rendering, animation, post-production, and digital presentation design. Collaborate with architects and clients on interior/exterior concepts, 3D design, and visual communication.

CG Artist & Architect | Fargah Design Company

Karaj, Iran | Mar 2020 – Apr 2023

Worked in architecture and animation. Produced 3D designs, architectural rendering, animation, modeling, and post-production for company projects.
